

Intello Labs (www.intellolabs.com) (<https://www.linkedin.com/company/13259985/>)

Job Role - Architect/Sr. Architect

Job Responsibility - Deep Learning Engineering Leader(6+ year experience in image processing/machine learning)

Description

Intello Labs is leading research and development firm in problems related to deep learning and computer vision for creating the next generation of Innovative products. The intello labs team focuses on developing new concepts and user experiences through rapid prototyping and collaboration with the best-in-class research and development.

The Architect will be responsible for leading research, software implementation for new concept prototypes in the areas of computer vision and deep learning. Based on requirements set by the team, the engineer will help develop new and rapid prototypes and development of end to end products for problems related to agritech and other use cases.

Currently, Intello Labs is seeking a Senior Architect in Deep Learning who can lead the deep learning team at intello labs.

What You'll Get to Do:

Job Summary:

At Intello labs, we work at the bleeding edge of deep learning and collaborate with the world's best companies and research centers. We are looking for passionate engineers and researchers that want to contribute in this exciting and fast moving field. This new role focuses on bleeding edge deep learning algorithms and models for computer vision.

Key Accountabilities:

International conference papers/Patents, Algorithm design, deep learning development, programming (Python, C/C++),

What You'll Bring:

Education & Experience:

MS/ME/PhD in Computer Science, Computer Engineering equivalent
Proficient in Python and C++, CUDA a plus

Knowledge of multiple deep-learning frameworks, such as Caffe, TensorFlow, Theano, Torch/PyTorch

Problem Solving:

Deep learning development

Vision, perception, control, planning algorithm development

Track record of excellence in the machine learning / perception / control, including patents, publications to international conferences or journals.

Communications:

Good communication skills

What We Offer:

Family like environment with an entrepreneurial mindset

Collaborative culture that thrives on innovation and new ideas

Rewards and recognition for great achievements

Growth opportunities for career development

Flexible work arrangements to help balance life and work

Competitive benefits and compensation package
